

# Dr. Wojciech Gorczyca joins CSI Laboratories® as Director of Flow Cytometry.

September 12, 2011 - CSI Laboratories, a private national cancer diagnostics laboratory, today announced that Wojciech Gorczyca, M.D., Ph.D. has joined its medical staff serving in the role of Director of Flow Cytometry.

"Dr. Gorczyca is a noted authority in clinical flow cytometry and hematopathology. We are confident that his expertise will help further establish CSI as a leader in leukemia and lymphoma diagnosis," said Dr. Lawrence Hertzberg, CSI Laboratories' Medical Director.

Most recently, Dr. Gorczyca served for ten years as a hematopathologist with Genzyme Genetics, Inc. / IMPATH, Inc. where he worked with other members of CSI Laboratories' medical team, including Dr. Hertzberg, Dr. Steve Kargas, Director of Surgical Pathology and Dr. Theresa Brown, Director of Genetics. Dr. Gorczyca earned his medical degree and doctorate in pathology from Pomeranian Medical University in Szczecin, Poland. He completed fellowships in flow cytometry at Radium Hospital in Oslo, Norway and at New York Medical College in Valhalla, New York. He is a well-respected lecturer and author, having published numerous peer-reviewed journal articles and six text books including *Flow Cytometry in Neoplastic Hematology: Morphologic-Immunophenotypic Correlation*, 2<sup>nd</sup> edition and *Atlas of Differential Diagnosis in Neoplastic Hematopathology*, 2<sup>nd</sup> edition.

Heather Creran, CSI Laboratories' President and CEO commented, "CSI Laboratories has emerged as a premier national provider of cancer diagnostics to pathologists. We continue to invest in technologies and resources that support their practice of medicine. The addition of Dr. Gorczyca to our medical team strengthens our consultation service and creates a foundation for research and development in our organization."

## **About CSI Laboratories**

CSI Laboratories is a specialized cancer diagnostic laboratory focused specifically on meeting the unique needs and challenges of pathologists and community hospitals. The company provides diagnostic testing in flow cytometry, cytogenetic analysis, fluorescence in-situ hybridization (FISH), immunohistochemistry, molecular genetics and consultations in the areas of hematopathology and surgical pathology. All of CSI's testing services are performed in its CLIA-certified and CAP-accredited laboratory located in Alpharetta, GA. CSI Laboratories is independently owned and operated by medical professionals, and has provided expert diagnostic testing to physicians across the United States since 1997.
